Call for Serial Numbers

To better serve our customers, we are asking for a little help. Frontier Precision is updating our equipment database, and we are looking to confirm serial numbers of your existing equipment. If you have a few moments, we are asking that you forward to our technical support department the serial numbers of your existing Trimble equipment. This would include GPS Receivers, GPS Radios, Total Stations, Data Collectors, and Software. What this does is helps us confirm warranty information, including software enhancements and factory warranties.

If you send in your serial numbers, you will be entered into a drawing for a chance to win prizes. We will be giving away hats, t-shirts, and the Grand Prize winner will get a Trimble Dunbrooke Jacket.

Please forward your serial number list to Jay at jayh@frontierprecision.com or by calling 1-888-797-4774.

We will be drawing for prizes September 12th, so get your equipment list in today. Thanks for your help!
