Trimble Dimensions 2009

The Trimble world-wide user conference "Dimensions" is scheduled for February 23-25, 2009 at the Mirage Hotel Event Center in Las Vegas Nevada. This is a highly recommended conference, with events for all personnel - including field, office, and management staff. Hands on learning and the largest technical gallery of Trimble personnel also helps rate this event as a top opportunity to network with your peers.

Now is the time to start getting ready for Dimensions 2009. Planning and scheduling now will allow you to get reduced rates on the event, airline tickets, and accommodations.

A Dimensions track session scheduler will be available soon, with Construction, Survey, Scanning, and VRS tracks, so please check the Trimble website regularly for updated event information.

Below is a link to last years event, where you can look at the track sessions, exhibitors, and other conference information. The Dimensions 2009 conference website is not up yet, but will be soon, so check back regularly for more information.
