2008 TAX BENEFITS!

Tax Section 179 is a great way to take advantage of income tax benefits for business equipment in just one tax year rather than stretching the cost across several tax years.

The provisions of **Internal Revenue Code Section 179** allow a sole proprietor, partnership, or corporation to fully expense tangible property up to \$250,000 in the year that it was purchased. New tax law changes made in 2008 can benefit you in several ways for equipment placed into service between Dec. 31, 2007 and Jan 1, 2009. When combined with the Trimble 6 Month Same as Cash lease, you can depreciate the entire cost of the equipment on your 2008 taxes before your first payment is due in May 2009.
