

Presents

Montana Trimble User Meeting

Frontier Precision is pleased to present the Trimble User Meeting for 2012. This all day seminar will give Trimble users an opportunity to meet Trimble Representatives, ask technical questions, and see the latest in GPS and conventional surveying technology from Trimble. This seminar is for ALL Trimble field and office users.

Learn more about the TSC3 Access Controller and Trimble Business Center. We will cover that latest developments in receiver, radio, robotic, and data collector technology. See the latest in Frontier Precision and Trimble products, services. Trimble representatives will be on hand to answer your product and technical questions.

The most popular portion of these meetings is the extensive question and answer session. This forum allows direct interaction and user feedback with Trimble representatives.

Don't miss this chance to learn as well as meet and network with other Trimble users and Trimble representatives.

Registration is handled through the MARLS pre conference registration. Continuing educations certificates will be given. There will be door prizes.

Where: Best Western Heritage Inn, Great Falls MT

Date: Wednesday, February 15, 2012

Time: 8:00-5:00

Cost: Included with MARLS registration (Lunch included!).

Registration: Registration for MARLS is required.
