

WORKSHOP
Getting Started With Trimble TerraFlex
MAPLE GROVE, MN
March 3, 2017

*Register to attend this workshop to learn the basics of TerraFlex,
and understand the capabilities of an integrated Esri ArcGIS Workflow!*

We will educate you start to finish, on workflow cover project planning, form template building, high accuracy GNSS receiver support, setup of MNCors VRS corrections for high accuracy, data collection best practices, and exporting data. We will also highlight the integration component, using Trimble's TerraFlex Plugin for Esri's ArcGIS. This Plugin allows users to synchronize directly with a Geodatabase, to edit and update data live from the cloud.

SESSION DETAILS:

- Project planning & managing users.
- MNCORS VRS setup (Geo7X, R1 & R2 GNSS Receiver).
- High Accuracy GNSS receiver integration (Geo7X, R1, R2, R10).
- Data maintenance workflow with the Trimble TerraFlex Plugin for Esri's ArcGIS.
- Best field data collection practices.
